

**High Commission of India
Nairobi**

Indian Engineering Exhibition (INDEE KENYA) during 11-13 October 2023 at KICC, Nairobi

The High Commission of India, Nairobi is pleased to inform that Engineering Export Promotion Council of India (EEPC India) is organizing Indian Engineering Exhibition (INDEE KENYA) during 11-13 October 2023 at KICC, Nairobi.

EEPC India is a premier trade and investment promotion organisation in India representing India's engineering export community. The exhibition will feature many renowned Indian engineering manufacturers showcasing their expertise and products. This event will serve as a platform for Indian engineering enterprises to connect with their Kenyan and East African counterparts, allowing them to explore business opportunities and strengthen their relationships.

Kenya imports a variety of engineering products such as industrial machinery for boilers and parts, automobiles and auto components, iron and steel products, electrical machinery and equipment, ship, boats and floating structures, medical devices and other instruments. India exports products in all these segments. Kenyan companies looking for opportunities especially in sectors such as infrastructure, environment and natural resources, building and construction, manufacturing, and agribusiness engineering services are invited to the exhibition. This exhibition is a platform for potential investment opportunities with Indian engineering enterprises, especially in areas such as power generation equipment, power transmission infrastructure, and household appliances.

High Commission of India Nairobi invites companies to visit the INDEE Kenya Show and take advantage of the available business opportunities. A list of participating Indian Companies is attached. Detailed information regarding the show is available at: <http://indee-kenya.com>. Any further clarification may kindly addressed to the organizers, Mr. Nishikant Jumde, Email: njumde@eepcindia.net with intimation to this Mission at comsec.nairobi@mea.gov.in.
